

HOPE4Youth Newsletter

December 2024/January 2025

In This Newsletter

In this month's newsletter we will explore new vaping devices as well as marijuana dab pens. The trend with vapes and dab pens in 2024 is all about keeping things low-key and easily concealed. These gadgets are getting smaller, sleeker, and way easier to carry around without drawing attention. Companies are coming out with designs that look more like everyday items, so they're easier to tuck into a pocket or bag.

Why are companies going to such great lengths to conceal these items? I can only think of one reason and that's to make them available to youth. The easier to conceal, the earlier they can get youth to use, the more money they can make over a longer period of time.

Impact Council Member Introductions

Below are our two Junior Class Impact Council members, Maddie Russell and Ruthie Stacy. Both Maddie and Ruthie are our newest members but have already been a huge asset. We are so excited to have them and can't wait to see how much they contribute to the Impact Council.
